STAKEHOLDER FEEDBACK

REPORTS

2024-2025

STAKEHOLDER FEEDBACK ON CURRICULUM (For professionals)

Professionals' feedback is an important parameter for quality improvement of nursing education thereby the quality of students. Therefore, professionals' feedback is received every year and evaluated by IQAC, Dr. PDNI Amravati and necessary updation made in the nursing curriculum for betterment of student community.

The technique used to collect feedback from professionals is a Five Point Rating Scale. It contains 15 items with 5 descriptors each. Hence, you are requested to go through each item one by one and rate accordingly. The parameters related each item shall be; Strongly agree-5, Agree-4, Uncertain-3, Disagree-2, & strongly disagree-1.

This feedback form intended to collect information related your satisfaction towards nursing curriculum. The information provided by you shall be kept confidential and will be used as important feedback for quality improvement.

No.	Descriptor	5	4	3	2	1
1	Curriculum is well structured and dynamic in nature					
2	Curriculum covers the current trends and practices with respect to the emerging need of stakeholder					
3	Course content in the syllabus has corresponding reference material					
4	The program curriculum consists the sufficient no. of skill specific courses					
5	Syllabus can be covered on time					
6	Syllabus contain good balance between theory and application					
7	Curriculum has scope for research, training, internship					
8	Sufficient no. of prescribed books and reference materials are available in the library					
9	Syllabus address about human, social values and professional ethics					
10	Curriculum facilitates an overall holistic development of the student					
11	Programme outcome of the syllabus is well defined and clear					
12	The curriculum gives exposure to latest developments in the field					
13	The curriculum provides experiential learning through student seminar, group discussion, projects, field visits					

14	Curriculum design encompasses syllabus for competitive exams.					
15	The course in the curriculum provides the students with required managerial/leadership qualities and encourage works as part of team					

Any suggestion / comments on nursing curriculum leading to nursing courses to improve the quality of education

3. Agenda: enclosed
4. Minutes of the meeting dated: 8.4.25

Recommendation	Resolution	Action taken
Students must improve English language	It was observed that many students face challenges in effectively communicating in English, which can hinder both academic performance and future professional opportunities. To address this issue, the college has taken proactive measures by organizing regular English language sessions conducted by experienced faculty members. These sessions focus on grammar, vocabulary, pronunciation, and practical conversational skills. The initiative has been well-received by students, and initial feedback indicates improved confidence and participation in English communication.	To enhance students' communicative English abilities, the college has arranged a series of English language lectures. The college will continue to monitor progress and consider additional support, such as language labs or peer group activities, to ensure sustained improvement.

DATE 10/14/2023

To,
The Head of Department
Dr. Panjabrao Deshmukh Nursing Institute, Amravati

Subject: Recommendation Based on Professional Feedback on Curriculum

Respected Sir/Madam,

With reference to the above-mentioned subject, as per the analysis report of student feedback and suggestions, it is observed that there is a need for improvement in students' English language proficiency. Hence it is requested to the concern department to provide adequate English language and additional support, such as language labs or peer group activities, to ensure sustained improvement.

This is for your kind information and necessary action.

Thanking you.
